

A vacation in the company of Hercules webcams

Moscow, June 16, 2011.

Hercules, an internationally acknowledged developer and manufacturer of interactive entertainment hardware, announces the availability of the best web cameras for hot summer communication on Russian market. You could be in contact even during the vacation in any part of the world! Classic Hercules products range webcams are so compact and lightweight that you can share the view from windows of your apartments without adding too much weight to your luggage.

Among Hercules web cameras line-up we'd like to highlight Hercules Classic Link, Hercules Classic Silver and Hercules Deluxe Optical Glass models.

Classic design, modern technologies

Hercules Classic Link webcam is a convenient and technologically advanced 'classic' web camera featuring a VGA sensor and a built-in microphone to make your communications even more comfortable. Frame rate of 30 frames per second ensures that video will be fluid and camera will capture all the moving objects. Moreover, video stream generated by the camera (800x600 in software interpolation mode) is optimized for instant messaging applications such as MSN Messenger, Skype and others which is very convenient in case of slow connection. Hercules Classic Link camera could be easily mounted on any display or notebook and then positioned in such a way that it can provide the most favourable view from the window of your apartments: you can turn photo and video recorder 360 degrees in horizontal direction and 180 in vertical direction. The bundled easy to use software package, Hercules Webcam Station Evolution SE, provides 3 photo shooting modes: single shoot, burst and self-timer. Using Hercules Classic Link you can capture video by pressing a single button. You can easily send captured photos and videos by email to friends and colleagues - software will automatically convert your media files into appropriate format. Camera is bundled with Hercules Webcam Station Evolution SE software, a quick user guide and a complete user manual in PDF format. Recommended price for the device is 430 RUB.

Incredibly stylish Hercules Classic Silver resembles old photo cameras: device optics is fitted into elegant silver case. Thin and lightweight case contains everything that a user needs: A VGA sensor, built-in microphone and 4 bright LEDs which provide high contrast and bright picture even in bad lighting conditions. Camera provides smoothed 1.3 megapixel image in photo mode and clear 800x600 image in video mode (interpolation) to use with most instant messaging software (Skype, MSN Messenger and others). Also it features a built-in microphone which will make it easy to tell your friends and relatives about the most interesting and exciting summertime moments. As other Hercules cameras, Hercules Classic Silver is bundled with universal fixture which lets fix camera in any convenient place. Moreover it features rotation system which provides horizontal axial rotation (360 degrees) and vertical rotation (60 degrees) of the camera. A device is bundled with Hercules Webcam Station Evolution SE software, Quick Start user guide, full User Manual in PDF format; recommended retail price is 560 RUB.

Technology is in old-fashioned enclosure

Incredibly stylish Hercules Classic Silver resembles old photo cameras: device optics is fitted into elegant silver case. Thin and lightweight case contains everything that a user needs: A VGA sensor, built-in microphone and 4 bright LEDs which provide high contrast and bright picture even in bad lighting conditions. Camera provides smoothed 1.3 megapixel image in photo mode and clear 800x600 image in video mode (interpolation) to use with most instant messaging software (Skype, MSN Messenger and others). Also it features a built-in microphone which will make it easy to tell your friends and relatives about the most interesting and exciting summertime moments. Moreover it features rotation system which provides horizontal axial rotation (360 degrees) and vertical rotation (60 degrees) of the camera. A device is bundled with Hercules Webcam Station Evolution SE software, Quick Start user guide, full User Manual in PDF format; recommended retail price is 560 RUB.

Luxury conversation

Comfortable dialogue is one of the basic demands of a person and Hercules Deluxe Optical Glass can meet it even in the case of a very demanding user: device packaging is up to the knocker. Camera features a VGA sensor with glass lenses which improve optical characteristics of the device and provide crystal clear shots. Owing to 4 LEDs, camera provides clear and smooth picture (1.3 Mpix for photos and 800x600 interpolation resolution for videos) even in bad lighting conditions. A bundled universal fixture allows to mount the camera where a user wants it or to put it on the table. Moreover, camera is equipped with wireless headset which ensures clear sound in any type of the environment! As any other Hercules product Hercules Deluxe Optical Glass camera is optimized for usage with instant messaging or with e-mail. Apart from easy to use Hercules Webcam Station Evolution SE software package, camera is bundled with Hercules Zoom Controller software which provides 3x image scaling and face tracking function. Camera is compatible with 32-bit and 64-bit Windows Vista. Camera bundle includes Hercules Deluxe Optical Glass web-camera, install CD with Hercules Webcam Station Evolution SE and Hercules Zoom Controller software, complete user guide in PDF format and Quick Start user guide. Recommended retail price for the device is 640 RUB.
